Judah Brown Project Home Safety Checklist:

- [ ] 5 ft high fence that surrounds all sides of the swimming pool or any permanent body of water in your yard, that has a self-closing and self-latching gate with a safety lock.
- [ ] All patio furniture and climbable things away from the pool fence.
- [ ] Place safety covers over above ground pools or hot tubs and remove any steps or ladders that could give access to water.
- [ ] Toys out of the pool and put out of sight when the pool is not being used. These entice children to the water.
- [ ] Cover garden ponds with chicken wire to prevent a child from being able to fall in.
- [ ] Drain all inflatable and kiddie pools after each use. Do not leave filled with water and toys.
- [ ] Remove water from buckets and tubs when not being used. A child can DROWN in as little as two inches of water in as little as 30 seconds.
- [ ] Store buckets and kiddie pools upside down, so they don't collect water.
- [ ] Keep toilet lids down and locked.
- [ ] Keep laundry room and bathroom doors closed, with a child safety device on the door knob.
- [ ] Learn CPR.
- [ ] Put alarms or chimes that are different to your house alarm on all windows and doors that may give access to the area of your home with the pool or hot tub.
- [ ] Secure dog doors with locks.
- [ ] Keep rescue equipment like a bouy or a long pole next to the pool area.
- [ ] Post CPR instructions and an AED near the pool area.
- [ ] If a child is missing, ALWAYS check the water FIRST!
